**Reference: Elgin Area Primary Water Supply System  
Twinning of Primary Water Transmission Main**

Dear Landowner:

The Elgin Area Primary Water Supply System has initiated the planning and design stages for the twinning of the primary water transmission main project for the Elgin Area Primary Water Supply System. Attached for your information is a copy of the public notice announcement for project commencement which has been sent to all other affected landowners along the pipeline easement, as well as municipal and senior government agencies. We have also attached a survey and a return addressed stamped envelope. We would appreciate if you can fill this survey out and mail it to us.

In order to ensure the success of this project, to the mutual satisfaction of all parties, it is important that the affected landowners are engaged and participate in the project in order to identify and minimize impacts to affected lands and address concerns of the landowners. In the near future we would like to meet with you at your convenience to discuss the scope and schedule for the project, and to discuss an agreement for site access, construction related activities, and the satisfactory reinstatement of lands upon completion.

Should you have any questions about this project or proposed landowner consultation, please contact the undersigned at your convenience.

A handwritten signature in black ink, appearing to read "Brian Lima".
